TALKS ON THRIFT

By
The Farmers' National Bank of
Camfield, Ohio

Member of the Federal Reserve Bank

"The United States will have to go through a long course of discipline before thrift is established as a national virtue to the same extent as it is in Great Britain."
—The Toronto Mail and Empire.

The movement to improve our military preparedness is receiving national attention at this time. It is a matter of the utmost importance.

Another and somewhat similar problem which confronts the nation and its individual citizens today is the proper conservation of national and personal resources. It is admitted on every side by those who are in a position to know that just now is emphatically a time for everybody to save as much as he can for the best interests of all concerned.

Various plans have been inaugurated to encourage saving. It is not only banks that are back of these efforts. In various ways a great many employers are encouraging thrift on the part of their employees, and there is an increasing number of voluntary "thrift clubs" and investment associations. One of the latest of these to come to our attention is worthy of notice for the sake of others who may be interested.

This saving and investing organization is called the "Moody's Magazine Savings Club." Mr. A. W. Ferrin, president of the Moody's Magazine and Book Company, New York, says: "There have been a large number of these clubs formed and several of them have completed the first ten months, have allotted the bonds and have started in on a second series."

The Certificate of Membership reads as follows:

This certifies that..... is a member of the MOODY'S MAGAZINE SAVINGS CLUB, No..... of..... and that he has paid to the Treasurer of the Club the sum of.....dollars the first of.....monthly payments for the purchase of one ONE HUNDRED DOLLAR BOND. (Name of bond to be written in when purchased.)

Said bond to be selected by him, to be purchased for him and held by the Treasurer of the Club in accordance with the conditions and regulations adopted therefor, a full understanding of which he hereby acknowledges.

Signed..... Signed.....
Member. Treasurer.

Thus it will be seen that the idea of the club is to help its members prepare for the future by building a bulwark of savings and storing up financial ammunition in the shape of good bonds.

This is an excellent idea, but if anyone who reads this article is so situated that he cannot join such a club, he can still carry out the principle on his own account. Let him save in a savings account and at the proper time withdraw some of his savings to put into a good bond, mortgage or other investment recommended by his bankers.

This has been the simple but sufficient plan of thousands who have solved the problem of financial preparedness.—T. D. MacGregor.—Adv.
